### Description

The PlantAtor-S100 is a manual land leveler with a fixed width of 100cm. The S100 is ideal for laying lawns and paving work. Its compact design makes it ideal for levelling narrow areas. Model S100 is equipped with 3 wheels with a diameter of 390mm, which move easily on any terrain. The grader is made of 4 mm thick steel, which makes it stable and durable.

Weight: 15 kg
